

Where is the U.S. during this time?

Many Theologians believe, either the United States will no longer exist, (at least as a significant world power), or - the U.S. will be in so much turmoil or disarray and have so many issues of its own, it will be in no position to help. Perhaps the military will be so depleted it will be strictly a defensive force. Time will tell... but we can see this happening as we look at what Socialism and Communism has done to other countries, which were once powerful forces in the world. Once again... time will tell, but if you are one of those "Scoffers," I would do a little more study and observation if I were you. I

2 Peter 3:3-4 (NKJV) ³ knowing this first: that scoffers will come in the last days, walking according to their own lusts, ⁴ and saying, "Where is the promise of His coming? For since the fathers fell asleep, all things continue as they were from the beginning of creation."

The scoffers can scoff all they want... people made fun of Noah too... that is... before it started to rain!

That gentle nudge you may be feeling in your gut right now is further evidence the Bible is true and that God is drawing you to Himself.

John 14:6 (NKJV)

This Time It's Different!

We are certainly on a new path... but towards what?

It is the year 2023... It is getting exciting... The Democrats are in control of the Whitehouse, the Senate, and the most of the News Media and Social Platforms! It appears the United States of America is well into the final stages of being "Fundamentally Changed." We here in America are on a "Fast Track" to Socialism, with Communism to follow close behind. Changing America has been the mantra of those on the Far Left for decades, and it looks like they will finally have the unstoppable power to do just that... and this time, they just might succeed!

If you are a Christian interested in Eschatology, this is exciting! You might be a bit curious as to why a "Christian" would be excited to see this nation on the verge of such a radical change; the answer can be summed up in one word... Prophecy! Before getting into that, consider this question... and think hard about the answer... we will premise the question with the following: **The United States of America, since its birth as a nation, has been the "Envy" of the world.** Many may contest that statement, but if you took a survey of everyone in the world, asking them, "Of all the countries in the world you could live in, which country would you pick?" The majority would say, "The United States," without hesitation! The reason for this is because, despite its shortcomings, (The U.S.A. is not perfect) the majority of the world believes there is more freedom and opportunity in the U.S. than anywhere in the world.

In addition to that, there are few other places in the world where people can practice any religion they choose (Including Satanism) without fear of imprisonment, injury, or death (At least for now). The big question for all of you is,

"Why would anyone want to change a country with these freedoms?"

Do they know what they are wishing for?

There is a big push for Socialism and Communism, especially from the Far Left here in the U.S. but have these Radicals and their followers considered that Socialistic, and Communistic countries have fences and walls on their borders, not to keep people out, but rather to keep the people in! What does this say to you?

Consider the story of an American citizen of Cuban decent; his Grandfather was in a Cuban prison for 17 years! His crime was that He was a Christian Pastor! Some might say that he was in fact guilty of breaking the law in his native country, as Cuba is in fact a Communist country, however, is this really what you want here in the U.S A.? Do you really want the government determining what you believe both Socially and Religiously? Persecution of Christians and the Christian Church is already beginning to happen here in the U.S.! There are many instances of Pastors here in the U.S., being arrested, and there are many instances over recent years of churches being "padlocked" by the government for various reasons. Of course, many of these stories are suppressed in the media and on social platforms, and for good reason... it exposes what is really going on!

Who—or What is really behind it all.

True Christians who read God's Word Know! Yes, there will be fundamental changes here in the U.S.A. and it has been well under way for decades. Some of the signs came into light in the 1960's, when prayer and the Bible was taken out of our schools, followed by God, and His Word, being banished from all levels of government and eventually from much of the public sector. Many people have been fired from their jobs because of their religious beliefs, even for statements they made not at work, but from their own homes... on "their own time!" What is the "End Game" of all of these things we see happening?

What is different this time?

When Bill Clinton and Barack Obama were elected president years ago, there were similar fears and predictions of the demise of America, but America survived, so what is different now? America has survived many swings to the "Radical Left" before, so again, why is now any different? The reasons are many, but I let us focus on just a few. First, is the "Moral State" of the people. Here in America, the morality of the population has never been as bad as it is today. Never before have Christians, and entire Churches been as "Carnal" (Influenced by the secular world) as they are today.

There are many obvious reasons for this, but the fact remains that the U.S.A. is very different (Spiritually) than it was during the "Clinton Years". Another big contributing factor is the secularization and control of both education, and of the media. Never before has there been more control of what people see, hear, and read; and never before has the educational system been as biased as it is today against the "Biblical Worldview." We are being forbidden by governmental agencies to challenge any viewpoint other than what the "authorities" deem to be acceptable! This my friend is what it is like to live under Communism!

How can all of this be exciting to a Christian? Approximately 1/3 of the Bible is Prophetic in nature. Most churches and pastors downplay prophecy these days and interestingly, that in itself is also a fulfillment of Bible prophecy! As for the significance of the recent elections, many people have asked, "Is the United States in Bible prophecy?" The Bible mentions that in the end there will be a time when all the nations of the world will come against Israel. Presently the U.S. is Israel's best ally in the world, but as the Bible mentions this "final battle," there is no mention of any nation siding with Israel, no mention of a great ally! God alone saves Israel from total destruction in such a way that there is no question of God's involvement.
